

/home/rodrigo/development
/tenacitas.lib/src/tnct
/lib/dat/translator.h

```
graph TD; A["/home/rodrigo/development  
/tenacitas.lib/src/tnct  
/lib/dat/translator.h"] --> B[cstdint]; A --> C[functional]; A --> D[string_view];
```

The diagram illustrates a directory structure where a header file, `/lib/dat/translator.h`, is located within the `/tenacitas.lib/src/tnct` subdirectory of `/home/rodrigo/development`. Three blue arrows originate from the bottom of the header file box and point to three separate boxes below it, representing the source files it includes: `cstdint`, `functional`, and `string_view`.

cstdint

functional

string_view
